AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph beginning at page 31, line 6 with the following replacement paragraph:

FIG. 21 is a diagram illustrating an example of a file describing the order of genre of news information provided to a user. Each value is defined by "name" included among the tags "<newsgenre>" to "</newsgenre>" in FIG. [[19]] 20. In this example, the order of the news genre is "Politics", "Business", "Sports" and "Weather" unless specifically specified otherwise by the user. It goes without saying that the order of news genre can be set by the user at will. By setting the order of the genre in accordance with user preference, the user can obtain the desired news information in the set order of the genre.
